PROFESSIONAL PROFILE

I have over three years' experience as a software developer. I am a full-stack software developer specialising in Node.js, with a strong command of the language and the ability to adapt quickly to new environments. I am creative and collaborative, and I have the ability to innovate and create products that are tailored to both the market and the team, facilitating smooth workflows.

WORK EXPERIENCE

Training LLM (Remote)

OUTLIER Scale IA | Nov 2022 - Feb 2026

Contributed to the training, evaluation, and improvement of Large Language Models (LLMs) by creating and validating datasets, prompts, and reference responses for reasoning, content generation, problem-solving, and technical assistance tasks. Assessed AI-generated outputs for accuracy, relevance, instruction adherence, and overall quality, identifying errors and improvement opportunities to enhance model performance. Participated in data annotation, instruction tuning, and model evaluation workflows, with a strong focus on software engineering domains. Generated, reviewed, and validated solutions involving JavaScript, TypeScript, Python, and modern web technologies, while evaluating AI-generated code for correctness, functionality, and compliance with software development best practices.

WEB FULL STACK Node.js (Remote)

Bogotá, Colombia | ITGlobers | Nov 2022 - Jan 2025

Develop and enhance new features for the company's existing products, such as the CMS used to manage content for the e-commerce applications of major retail chains including Olímpica, the Cencosud Group, LaRebaja, Corona CL and Chedraui MX. Implementation of artificial intelligence in internal CMS products. Development and support of e-commerce mobile applications, including Chedraui MX, Olímpica, Jumbo, Metro, Easy and La Rebaja.

SQL Database Administrator and Support

Cartagena, Colombia | Venoplast LTDA | Nov 2021 – Jul 2022

Manage and support SQL Server databases and automate processes on Windows computers, such as software installations and updates.
